We gratefully acknowledge contributions from all EPC+ partners.

This document has been elaborated within the *Energy Performance Contracting Plus (EPC+)* project and is available on the project website.

www.epcplus.org

Deliverable: 7.6

*This project has received funding from the European Union's Horizon 2020 research and innovation programme under grant agreement No. 649666.
The content here included reflects only the authors' views and the EASME is not responsible for any use that may be made of the information it contains.*

The EPC+ project aims at developing and promoting new business models for the implementation of innovative energy efficiency services through cooperation of Small and Medium-sized Enterprises (SMEs). Such innovative energy efficiency services (EES) can be offered in form of energy performance contracts (EPC).

Within the frame of the EPC+ project, each partner country elaborates press notes and articles that are published in magazines, newspapers, websites focused on energy, etc.

The articles at national level are elaborated by each partner; the articles at European level are mostly elaborated by Escan and included in the News section.

The collection of the articles, press notes and publications is included in the Press book of each partner report.
